BIO

I’m a self-taught full-stack developer with a passion for solving real-world problems through technology. I enjoy working on both frontend and backend, creating practical and user-friendly solutions that actually make an impact. I work well both on my own and as part of a team, and I’m excited to contribute my knowledge and grow while helping the company move forward.

SKILLS AND COMPETENCIES

Technical Skills

Languages : JavaScript (ES6), TypeScript, HTML5, CSS, Tailwind CSS, C#, SQL
Frameworks : React, Express, .Net Core
Databases : PostgreSQL, MongoDB
VCS : Git/GitHub
Tools/IDEs : Visual Studio Code, Visual Studio
Others : Node.js, Framer Motion, N8N Automations, ShadCN, Postman, Supabase, Responsive Web Development, AWS (Currently Following).

Key Skills

Problem Solving skills
Self-Motivated
Fast Learner
Ability to work as a team

PROJECTS

• Crystal Beauty Clear

Developed a secure beauty e-commerce platform with user authentication, product management, reviews, order processing, and smart inventory tracking. Gained hands-on experience with JWT authentication, password hashing, Express middleware, Mongoose aggregation, rate limiting, OAuth2, and application hosting.

Technologies : React, Tailwind CSS, Node.js, Express.js, MongoDB, react-router-dom, Supabase, Framer Motion, JWT Auth, Argon2, Nodemailer.

• Stock Social Platform

Built a .NET Core Web API for managing stock portfolios and comments, with automatic fetching missing stock data from the FMP API. Learned JWT authentication and authorization, middleware, services, DTOs, EF Core, data migrations, seeding, query objects, and clean API architecture.

Technologies : C#, .NET Core web API, PostgreSQL, JWT, FMP API, EF Core npgsql, newtonsoft

- **Chef Claude**
Created an AI-powered recipe generator that produces simple recipes based on user-provided ingredients. Gained experience integrating AI/ML APIs and handling dynamic content.
Technologies : React, Tailwind CSS, GSAP, AI.ML API
- **Insta Share – Quick file share platform**
Developed a secure file-sharing platform allowing users to share files via QR codes or email links, with optional automatic deletion (TTL). Learned file encryption, Supabase storage integration, metadata management with MongoDB, and rate-limiting for secure APIs.
Technologies : React, Tailwind CSS, Node.js, Express.js, MongoDB, react-router-dom, Supabase, mail Jet, qrcode.react, Express Rate Limiter.

EDUCATION

Kingston University: BSc (Hons) in Software Engineering (Top-Up)	Present
Pearson: HND in Computing Software Engineering	Feb 2024 - Aug 2025

OTHER QUALIFICATIONS

Skyrek: Full Stack Web Development using MERN	Jul-2025
Kevin Powell: Conquering Responsive Layouts	Feb-2025
University of Moratuwa: Web Design for Beginners	Feb-2024
University of Moratuwa: Python for Beginners	Feb-2024

NON-RELATED REFEREES

Mr. Chamith Madhushan
Associate Manager – System Administration.
